2010 SERC UNITED WE STAND GRANT

GOALS:

*Tell the SERC what you want to accomplish with this grant. This section should contain a separate discussion of each goal. The goals are general statements of desired result, and should identify intended outcomes and results the program has established to achieve. **Threat & risk/mitigation; Infrastructure protection/mitigation; and Accomplishment of objectives in State Homeland Security Strategy must be addressed.***

Begin typing in this box.

Goals:

It is the Pershing County LEPC's goal this grant period to more fully equip the trailer that was funded last grant period, in order to have it be a fully functionally reponse unit trailer. The evacuation response trailer Pershing County purchased with United We Stand funds last year needs communication capabilities as well we need to supply our responders with the appropriate safety gear to accomplish the task. This trailer when fully stocked will allow Pershing County to repond to terrorism events within the county that would involve medical treatment, rescue, structure/vehicle rescue. Because of the wide range of scope of terroristic acts, the trailer needs to be supplied with a wide range of equipment utilized to keep the responders safe. A properly equipped trailer will not limit our responders in the flexibility to deal with a wide range of possible scenarios.

How do the goals address threat & risk/mitigation?

This grant includes a communication request, this will allow responders to have constant communication in the event of a terrorist act; adequate communication is a necessity in responding effectively and thoroughly to a situation. The trailer referenced above needs to be equipped with portable radio communication, we are requesting funding to supply a radio cache to this trailer. In unknown situations responders have to be prepared for whatever awaits them, in order to do this a wide range of protection equipment is needed so that our responders are as protected as they can possibly be in any such event. Pershing County wants responders to be prepared with training but also equipped properly with safety attire to deal with any terrorist situation that may occur. Because of this, the county is trying to supply the trailer with a range of protective gear for our situation responders.

How do the goals address infrastructure protection/mitigation?

The supplies and equipment on this grant will support the counties infrastructure and protect during terrorism events the radio communication request serves a dual purpose as far as the goals are concerned. The communication equipment plays a critical role in responding to a crisis situation. When surveillance and intelligence information needs to be passed on to support agencies it is critical to have reliable communication equipment. Through good communication potential threats can be mitigated prior to the act. But also aids in prevention of crisis situations.

How do the goals address accomplishment of objectives in State Homeland Security Strategy?

The equipment listed on the grant are critical pieces of equipment that will help our county accomplish the equipment needs that the county has. It will also satisfy the objectives for the State Enhancement Plan for Homeland Security. These include strengthen our communication and information sharing capabilities by providing the latest upgraded equipment for responders and law enforcement to counter terrorism operations. They will also satisfy the initiative for evacuation response and procedures during a terrorism act. This will aid our responders with access to evacuation and shelter preparations for those that need them.

OBJECTIVES:

Pershing County will purchase and install or stock the equipment items on this list. Namely Radio's, Jump suits, Gloves, Rope Rescue, Shelving units, Cargo netting, and cots. The radio's will be stored in the response trailer along with installation of the shelving units and cargo netting for the safe storage of supplies. The LEPC members and LVFD will install equipment and stock the Mass causality and Evac trailer. This will be completed by March 31st of 2010. With this trailer we will be able to respond quickly to casualties or wounded patients that are associated with possible terrorist attacks.

BUDGETS NARRATIVE:

EQUIPMENT.

EQUIPMENT COSTS:			
Radio's	Quantity	Unit Price	Amount requested

TOTAL EQUIPMENT (rounded up)				\$ 29,990.00
------------------------------	--	--	--	--------------

BUDGET NARRATIVE

EQUIPMENT

Radio's

The Portable radios will help Pershing County work toward interoperable communications with the county and mutual aid agencies we may assist. These radio's will be used to help give information that would be used before, during, or after any terrorist activity. These radio's will help in conjunction with the Evac trailer in the area of communications these radio's will be stored in the trailer to be utilized in a case of deployment of the trailer. The radio's will help us achieve communication capabilities during the use of the trailer and meeting our goal of a Evac response trailer.

Total Cost: \$10,477.48

Jump Suit & Gloves

The gloves and jumpsuits will provide the needed protection during a terrorist attack that deals with structure and vehicle extrication and rescue. These's suit will provide rescuers with the protection against cuts, scrapes, heat, and weather related safety issues. The gloves will provide protection for the hands during the aftermath of an attack in dealing with heat, debris, rubble, glass, or other sharp objects. These items would mainly be used during the mitigation of structure and vehicle damages.

Total Cost: \$10,587.00

USAR Rope Rescue

Rope rescue gear has been used numerous times during terrorist attacks usually through SAR teams. They are used to aid in the rescue of trapped victims along with other operations. When we conducted our table top exercise with the Bureau of Reclamation on the Rye Patch Dam Reservoir, we had a scenario that required the use of rope rescue techniques in order to get the radial gates at the dam opened up. Without the rope rescue equipment we were very limited in our abilities to mitigate disaster for the downstream residences.

Total Cost: \$3,948.85

Shelving unit & Cargo Net

The shelving and cargo netting will be used in conjunction with the Evac trailer to help house all of the supplies and equipment that would be deployed during a terrorist event that involved patients and homeless families. The netting will provide safety of equipment during transport by keeping equipment on the shelves or in their designation place. This will help us achieve our goal of having a quick response trailer designed to take care of injured and displaced families.

Total Cost: \$1759.75

Emergency Cots & Linen

The Cots and Linen will also be used to help stock the Response trailer and add patients and families in bedding supplies and a place to rest. We have seen many times over the years the use of these bedding materials during terrorist attacks not only as bedding but also medical bed usage. This will also help us achieve our goal of having this quick response trailer ready to use.

Total Cost: \$3216.54

Total Cost of Equipment (Rounded up): 29,990.00

CERTIFIED ASSURANCES

Upon acceptance of funding from the State of Nevada Emergency Response Commission (SERC), the lead governmental unit hereby agrees to the following Certified Assurances governing the awarding of funds.

- A) FINANCIAL REPORTS** – The grantee/sub-grantee agency is required to submit, at a minimum, quarterly financial reports to the SERC. Reporting must be made in accordance with all applicable federal, state, and local laws and regulations, and SERC policies 8.5 and 8.6.

No expenditures or obligations will be eligible for compensation if occurring prior to the award period. All funds need to be obligated by the end of the grant period and expended by the final report date as stated in the grant award cover letter. Failure to submit proper reports pursuant to current policies may jeopardize future funding from the SERC.

- 1) **Request for advance:** May be used only if expenses total over \$2,000.00 and is accompanied by a dated purchase order or quote.
- 2) **Report on expenditure of advance:** Show the actual expenditure of the advanced funds. This report is due **within 30 days** of the date of the advanced check and must include copies of dated invoices and proof of payment. If the amount advanced is more than the amount spent, or the advanced amount is not spent within the 30 days, the unexpended funds are to be returned to the SERC within 45 days of the date of the check.
- 3) **Request for reimbursement:** Complete and submit a financial report form, at a minimum quarterly, for all expenditures funded by the grant. Include copies of dated invoices and proof of payment. Any other form of documentation for expenditures must be approved by the SERC staff. If additional funds are used toward the project, report those expenditures as a **match** in the appropriate line on the report form.
- 4) **Quarterly report required:** If there are no expenditures within the quarter, a report with an explanation of why is due by the end of the month following the end of the quarter. Due dates for quarterly reports are as follows:

October 31	- for reporting period July 1 to September 30;
January 31	- for reporting period October 1 to December 31;
April 30	- for reporting period January 1 to March 31; and
July 31	- for reporting period April 1 to June 30.
- 5) **Final report:** There will be no further expenditures, the grant is closed, and no further reports are necessary. This report is due within 45 days after the end of the award period, or anytime prior to the end of the award period if no further funds will be spent.

- B) Exercise report:** Each LEPC/state agency must report to the SERC by January 31st of each year on at least one real event and/or tabletop, functional, or full-scale exercise or drill which tests the hazardous materials emergency response plan.
- C) GRANT CHANGE REQUEST -** Grant expenditures are authorized for the purposes set forth in this application, as approved in the grant award, and in accordance with all applicable laws, regulations, and policies and procedures of the State of Nevada and the applicable federal granting agency. Any request for change in the project must be submitted to the SERC and approved in writing prior to its implementation. Approval may be required by the Funding Committee if the change is significant (SERC policy 8.7).
- D)** The applicant certifies, through the submission of the grant application for funding, neither the lead agency, county government nor any of its participating agencies are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in the transaction by any federal department or agency.
- E)** The applicant assures the fiscal accountability of the funds received from the State Emergency Response Commission will be managed and accounted for by the lead agency's chief comptroller and internal control and authority to ensure compliance with SERC's documentation, record keeping, accounting, and reporting guidelines will reside with that individual.
- F)** The applicant and its contractors will comply with the nondiscrimination requirements of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975; and the American Disabilities Act of 1992.
- G)** The applicant will abide by audit requirements as specified in OMB Circular A-133 Audits of State and Local Governments as revised August 29, 1997.
- H)** Any publication (written, visual, or audio) issued by the sub-grantee describing programs funded whole or in part with federal funds, shall contain the following statement:
- “This program was supported by Grant # _____, awarded by the Nevada State Emergency Response Commission (and, if a HMEP grant, the U.S. Department of Transportation). Points of view or opinions contained within this document are those of the author and do not necessarily represent the official position of policies of the State Emergency Response Commission (and, if a HMEP grant, U.S. Department of Transportation).”
- I)** The applicant fully understands the State Emergency Response Commission has the right to suspend, terminate, or de-obligate grant funds to any grantee/sub-grantee that fails to conform to the requirements or the terms and conditions of its grant award.
- J) LOBBYING -** No grant funds appropriated will be paid, by or on behalf of the grantee/sub-grantee, to any person for influencing or attempting to influence an officer, employee, or a member of Congress, or an officer, employee, or any member of the Nevada State Legislature.

- K) Project related income, (i.e., registration fees, royalties, sales of real and personal property) must be used for the purpose of furthering the goals and objectives of the project or program from which the income was generated. Interest earned must be returned to the State Emergency Response Commission.

LEPC COMPLIANCE CERTIFICATION

The following must be met by the Local Emergency Planning Committees (LEPCs) as requirements for compliance with federal and State laws and regulations and SERC policies and procedures. This checklist must be completed, signed, and returned annually by March 31, even if the LEPC is not a recipient of grant funds.

A check mark in the boxes will indicate a YES response.

- ☒ Have changes in the LEPC Bylaws and Membership list been submitted to SERC?

Bylaws reviewed/updated - Date: 12/19/08 Submitted: 2/12/09

Membership list reviewed/updated - Date: 2/9/09 Submitted: 2/12/09

- ☒ Have LEPC meetings been held, at a minimum quarterly, and have agendas and minutes of all meetings, including special meetings, been forwarded to the SERC?

- ☒ Has the LEPC submitted all required reports which summarize the financial management of the active grants (*i.e. copies of invoices and verification of expenditures*)?

- ☒ Has the LEPC reviewed and/or updated its hazardous materials emergency plan (or haz-mat portion of the jurisdiction's "all hazards" plan) within the last year? Have Plan review results and updates been submitted to the SERC in writing along with a copy of the LEPC meeting minutes documenting review of the Plan?

Review/update - Date: 12/19/09 Submitted: 2/17/09

- ☒ Has the LEPC conducted least one incident or exercise, tabletop or full scale, of its hazardous materials emergency response plan and reported on it by January 31st?

Indicate the date of the most recent exercise: 7/20/08 Reported: 10/15/08

- ☒ Has the LEPC met the annual requirement of publishing the Emergency Planning and Community Right-to-Know Act "information availability" in the local newspaper? Has the standard Affidavit of Publication been sent to the SERC?

Date of publication: 4/2/09 Affidavit Submitted: 4/ /09

As chairman of the

Pershing County
County Name

Local Emergency Planning

Committee, attest all information provided on this compliance certification is accurate.
